

## Purchase Order Terms and Conditions

### TEXTRON SPECIALIZED VEHICLES INC.

**These purchase order terms and conditions (“Terms and Conditions”) are hereby incorporated by reference into and made a part of each purchase order issued to Supplier, or otherwise provided to Supplier by Textron Specialized Vehicles Inc. (the “Buyer”).**

1. ACCEPTANCE: The term “Products” throughout these Terms and Conditions includes, without limitation, raw materials, parts, components, intermediate assemblies, vehicles and end products. Each Buyer purchase order (“Order”) is not binding on Buyer until Supplier accepts the Order in writing. If Supplier does not accept the Order in writing within five (5) days of Supplier’s receipt thereof, the Order will lapse. NO PURPORTED ACCEPTANCE OF ANY ORDER ON TERMS AND CONDITIONS WHICH MODIFY, SUPERSEDE, OR OTHERWISE ALTER THE TERMS AND CONDITIONS HEREOF SHALL BE BINDING UPON BUYER, ARE EXPRESSLY DISCLAIMED, AND SHALL BE DEEMED REJECTED, UNLESS THEY ARE ACCEPTED, IN WRITING, BY AN AUTHORIZED REPRESENTATIVE OF BUYER, NOTWITHSTANDING BUYER’S ACCEPTANCE OR PAYMENT FOR ANY SHIPMENT OF PRODUCTS OR SIMILAR ACTS OF BUYER. Unless otherwise stated in such Order, each Order is Buyer’s offer to Supplier and does not constitute an acceptance by Buyer of any offer or quotation by Supplier. Any reference herein to any such offer or quotation by Supplier is solely for the purpose of incorporating the description and specifications of the subject matter thereof into the Order and then only to the extent that such description and specifications do not conflict with the description and specifications contained in such Order. By fulfilling any Order, Supplier accepts Buyer’s terms and conditions set forth herein.

2. DELIVERY: Delivery must be in strict compliance with the schedule contained in each Order and shall be made by Supplier at such times and places and of such items and quantities as may be specified by Buyer. Time is of the essence for each Order. Shipments of Products in excess or in advance of Buyer’s requirements contained in each Order are at Supplier’s risk. Buyer reserves the right to return to Supplier, at Supplier’s expense, all Products received more than two (2) calendar days ahead of the required delivery date. Buyer reserves the right, without loss of any rights or privileges under any Order, including, without limitation, the right to benefit from any cash discounts, to pay invoices covering items shipped in advance of the schedule on the normal maturity after the date specified for delivery. If Supplier fails to meet its scheduled delivery dates and Buyer elects to call for expedited shipments, Supplier will pay the difference between the method of shipping specified and the actual expedited rate incurred. Supplier shall be responsible for any additional charges resulting from any deviation from Buyer’s routing instructions. Buyer’s Transportation Routing Instructions are located at “<http://routingguides.textron.com>”. Should Buyer accept Products which are not delivered on or before the required delivery date, which option Buyer reserves, then Supplier shall be liable for all additional costs incurred by Buyer because of such delay(s), including, but not limited to, telecommunication costs, additional or premium transportation charges, special handling expenses, and costs to Buyer to store the materials, in addition to other remedies available by law to Buyer. All shipments originating within the U.S. shall be delivered FCA Buyer’s dock (Freight Collect) (Incoterms 2020). All shipments originating outside the U.S. shall be delivered DAP (Freight Collect) (Incoterms 2020). Title and risk of loss shall remain with the Supplier until Products are delivered to the Incoterm delivery point. Notwithstanding such delivery terms, Supplier shall bear the entire risk of loss or damage to Products purchased hereunder from the time that Buyer gives notice of rejection of such Products pursuant to the inspection provisions of the applicable Order. If Supplier encounters or anticipates difficulty in meeting the delivery schedule, Supplier shall immediately notify Buyer in writing, giving pertinent details; provided however, that the receipt of such information shall be for information purposes only and shall not constitute a waiver by Buyer of any delivery schedule or date, or of any rights or remedies provided by law or in the applicable Order. If Supplier fails to make delivery promptly and regularly, as required by the Order, Buyer may, in addition to other remedies available at law, terminate such Order in accordance with paragraph 13(A) of these Terms and Conditions.

Nothing contained in this paragraph shall prevent termination by Buyer under the provisions of paragraph 13(A) of these Terms and Conditions.

3. **SHIPPING INSTRUCTIONS:** Supplier agrees to prepare and properly pack, box or crate Products for shipment so as to prevent damage in transit, to comply with Buyer's shipping instructions and/or routings, and to describe the Products on the bill of lading in conformity with appropriate freight classifications. In addition, Supplier shall specify on each bill of lading, Buyer's part numbers and the quantity of each item shipped. Any additional charges resulting from failure to comply with this provision, including incidental and consequential damages, shall be charged to Supplier. Each container must be marked to enable identification of contents and quantities without opening. Packing lists and certifications, when applicable, must accompany each shipment. The location of the packing list must be clearly marked on the container. When multiple containers are used, the packing list will show the items in each container. Multiple containers will be numbered consecutively, for example, 1 of 4, 2 of 4, etc. Buyer's purchase order number and plant location must appear on all invoices, packing sheets, delivery tickets, shipping orders and bills of lading. If Buyer requires or requests Supplier to apply Buyer-specified, computer-scannable bar codes on the packing sheets and/or Products containers, then Supplier agrees to do so, free of charge.

4. **INVOICING AND PAYMENT:** Individual invoices showing purchase order number and purchase order item number (and/or any other information required by Buyer) must be issued by Supplier for each shipment made pursuant to each Order. One (1) copy of each invoice shall be mailed within three (3) days after the Incoterm delivery date. Invoice date shall not precede the Incoterm delivery date. Rejections, delays in delivery or delivery in advance of required delivery date, and/or invoices and/or shipping documentation, errors and/or omissions will be considered just cause for withholding payment without loss of cash discount privilege(s). Unless otherwise specified, the price set forth in each Order shall include all charges for Supplier's packing and crating, and for insurance in transit. Buyer shall have no obligation to pay any invoices received by Buyer more than six (6) months after Supplier is required to submit such invoices.

5. **PAYMENT TERMS:** Payment terms shall be 2% 15, net sixty (60) days for U.S. product Suppliers and net average one hundred twenty (120) days for non-U.S. product Suppliers. Any discount terms must be agreed to, in writing, by both parties. Product tooling terms are paid in three equal increments: the first payment upon issuance of the purchase order, the second payment upon completion of the first product produced from the tooling and the final payment upon Production Part Approval Process (PPAP) approval. Capital payment terms will be paid ninety (90) days after commissioning.

6. **INSPECTION:** Supplier agrees to inspect and test all Products and monitor all services furnished in performance of each Order to insure compliance with the specifications and other requirements of each Order. Supplier will provide any Certificates of Compliance and/or Certificates of Conformance as required by Buyer at Supplier's expense. Supplier agrees to permit inspection, monitoring and testing by Buyer of all Products and services furnished in performance of each Order during manufacture or production, where practical, while being performed and at all other times and places. All Products shall be received subject to Buyer's inspection, acceptance or rejection. Inspection or testing of, or payment for, any Products or services shall not constitute acceptance of them. Acceptance by Buyer does not relieve Supplier of liability for defects or any failure to conform to Buyer specifications. Buyer shall have the right to reject any Products and refuse any services found not to be in compliance with the specifications or other requirements of the Order. The obligations of this paragraph shall survive the cancellation, termination, expiration or completion of each Order.

7. **WARRANTY:**

(A) Supplier expressly warrants that all Products and services furnished hereunder do not infringe on any patent, copyright or other intellectual property right of any third party and

Supplier will convey clear title to Products to Buyer, free of any liens or encumbrances. Products furnished shall strictly conform to all specifications, drawings, samples, or other descriptions furnished, specified or adopted by Buyer and to all other requirements of the Order. Products will be merchantable, of good material and workmanship and free from defect in design, material and workmanship. In addition, Supplier acknowledges that Supplier knows of Buyer's intended use and warrants/guarantees that all Products covered by any Order that have been selected, designed, manufactured or assembled by Supplier based upon Buyer's stated use will be fit and sufficient for the particular purposes intended by Buyer. The warranty period shall be four (4) years from the date of the Products are sold to an end user, except that if Buyer offers a longer warranty to its customers, such longer period shall apply. Such warranties, together with Supplier's service warranties and guarantees, if any, shall survive inspection, test, acceptance of, and payment for the Products or services and shall run to Buyer, its successors, assigns, customers at any tier, and all end users.

- (B) Buyer may, at its option: (i) return defective or non-conforming Products for credit or refund (without Supplier having any right to furnish conforming Products), (ii) require prompt replacement or correction of the defective or nonconforming Products, or (iii) have the defective item corrected or replaced at Supplier's expense and deduct the cost thereof from any monies due Supplier. In each instance, Supplier's warranty coverage shall include, without limitation, all component replacement costs of parts; all costs of transportation, including all freight charges, both from and to the Buyer or ultimate end user, including air priority, if requested by the Buyer; and all costs of labor, such as, for example, reasonable removal and reinstallation costs, as well as a time allowance for troubleshooting. Reimbursement for any and all labor costs shall be at Buyer's current posted shop rate. Such Products will be held for Supplier's instructions and at its risk, or at Buyer's option, will be returned at Supplier's risk. The return to Supplier of any defective or nonconforming Products and delivery to Buyer of any corrected or replaced Products shall be at Supplier's expense. Buyer's packing sheet, which accompanies Products returned, will indicate whether Products are to be corrected, replaced or credited to Buyer. No Products thus returned will be replaced or corrected by Supplier without Buyer's written instructions. Products which have been rejected or required to be corrected shall not thereafter be tendered for acceptance unless the former rejection or correction requirement is disclosed in writing.
  - (C) Any services that do not conform to the requirements of an Order shall, at the option of Buyer be: (i) replaced forthwith with substitute services which do conform or (ii) terminated. If necessary, Buyer may replace such services from a provider other than Supplier and Supplier shall pay or credit to Buyer on demand all amounts paid by or charged to Buyer for such nonconforming services, all Buyer costs of such replacement services and all costs and expenses suffered or incurred by Buyer on account of Supplier's failure to provide services conforming to the requirements of the Order.
  - (D) In addition to any other remedies available to Buyer for breach of this warranty and notwithstanding any other provision of any Order to the contrary, Buyer shall have the right, but not the obligation, and is hereby granted a non-exclusive, royalty-free license, to make or have made by a third party service provider such modifications to any computer programs provided by Supplier hereunder as may be necessary to rectify any failure of such programs to comply with this warranty. The remedies provided in this paragraph are in addition to all other remedies provided to Buyer by law and herein, including Termination under paragraph 12. The obligations of this paragraph shall survive the cancellation, termination, expiration, or completion of each Order.
8. **CHANGES:** Buyer shall have the right at any time to make changes in one or more of the following: (A) the method of shipment or packing, (B) place or time of delivery or performance; and (C) the quantities covered by any Order. Notices of changes hereunder shall be delivered

to Supplier in writing and Supplier shall be bound by such changes upon receipt of such writing. Supplier understands and agrees that it shall not be entitled to any financial adjustment as a result of Buyer's changes in the time of delivery or performance. Supplier shall not make changes in the specifications, physical compositions of or processes used to manufacture Products (including destroying or moving tooling or equipment from one location to another) without Buyer's prior written consent.

#### 9. INTELLECTUAL PROPERTY:

(A) Supplier agrees that it will, at its own expense, including payment of costs and attorneys' fees and disbursements, defend any claims, charges or lawsuits instituted by any party against Buyer or its customers arising out of, in connection with or related to alleged misuse, misappropriation or infringement of any patent, trademark, copyright or other intellectual property right relating to Products or services furnished to Buyer in the performance of each Order, or relating to, resulting from or arising out of the receipt of such services or use of such Products in combination with other Products as recommended or approved by Supplier. Supplier further agrees to indemnify and hold harmless Buyer and its affiliates and all persons claiming under Buyer in respect of any claims, demands, liabilities, losses, judgments, awards, fines, settlements, court costs, attorney fees, and expenses incurred by reason of such claims, charges or lawsuits. Supplier shall notify Buyer in writing of each such notice or claim of which Supplier has knowledge. Supplier shall, at its own expense, either procure for Buyer the right to continue using the applicable article, apparatus, material, part, device, process or method or, if the performance thereof will not be adversely affected, replace same with a non-infringing substitute or modify it so it becomes non-infringing, or remove it and refund the purchase price, and transportation and installation costs thereof.

(B) With respect to ownership of intellectual property conceived hereunder:

- (i) Supplier agrees to, and hereby does, assign, transfer, and convey to Buyer all of Supplier's right, title and interest in and to any intellectual property conceived, developed, or acquired by Supplier in performing work for Buyer under each Order.
- (ii) Supplier agrees to disclose promptly to Buyer any invention, patent application, or patent covering an invention to which Buyer is entitled to an assignment under any Order and to perform any act, including without limitation, executing and delivering upon request any document that Buyer may deem desirable to enjoy the full benefit of the intellectual property.
- (iii) Supplier grants to Buyer, its present and future subsidiaries and controlled companies ("Affiliated Companies"), a non-exclusive, world-wide, paid-up, irrevocable, and perpetual license under any intellectual property right that is now owned or controlled by Supplier, to practice in connection with Buyer's and its Affiliated Companies' business, the products, processes, and technology within the scope of each Order, including, without limitation to: (a) make, have made, use, offer to sell, sell, and import any process, machine, manufacture, composition of matter, or any improvement thereof; and (b) reproduce, distribute only in connection with Buyer's and its Affiliated Companies' products, display publicly, perform publicly, and make derivative works based upon, any copyrighted work.

The obligations of this paragraph shall survive the cancellation, termination, expiration, or completion of each Order.

10. NOTICE OF DELAYS: Whenever Supplier has knowledge that any actual or potential occurrence is delaying or threatens to delay the timely performance of any Order, Supplier shall immediately give notice thereof to Buyer, including all relevant information with respect thereto.

Delivery delays caused by such occurrence shall be governed by paragraph 2 of these Terms and Conditions (and paragraph 12, Force Majeure, if and to the extent applicable).

#### 11. COMPLIANCE WITH LAWS:

- (A) Supplier and all Products shall comply with and be bound by all applicable European Union, United Kingdom, local, foreign, United States federal, state, and local laws, including rules, regulations, orders, conventions, ordinances, standards, and prohibitions (collectively, "Law"), that relate to the manufacture, labeling, handling, storage, packaging, transportation, importation, exportation, licensing, approval, sale, reporting, declaration or certification of the Products. This includes, without limitation, the U.S. Toxic Substances Control Act (TSCA), EU regulations and directives on conformity, EU regulation on hazardous substance, EU regulation on restricted or banned materials, the California Safe Drinking Water and Toxic Enforcement Act of 1986 ("Prop 65"), asbestos restrictions, and Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Conflict Minerals). In addition, Supplier shall comply with and be bound by all applicable laws relating to environmental matters, employee and contractor wages, hours and conditions of employment, subcontractor selection, discrimination, occupational health or safety, and motor vehicle safety.
- (B) Supplier shall, where applicable Law requires, notify and/or act to apply for waivers, exemptions or registrations, or declarations of conformity for chemicals or substances, to support the use or presence of a substance in Products provided to Buyer, and shall keep such waivers, exemptions, registrations, and declarations of conformity in good standing for the period of use (including inventory depletion) of Products, including submitting any updates, revisions, or resubmittals that may be required.
- (C) Supplier agrees to provide all information or data Buyer may reasonably request for Buyer to satisfy its reporting obligations under any Law. Supplier remains responsible for providing this information or data, notwithstanding that Supplier may need to obtain this information from its supply chain to ensure documentation and reporting as required. Supplier shall provide a full material disclosure of the Products supplied to Buyer. Supplier shall bear any and all costs and expenses related to compliance herewith.
- (D) Delivery of any Products shall constitute Supplier's representation to Buyer that Supplier has been and will be in full compliance with all applicable environmental and health and safety Laws, including without limitation:

This requirement is in addition to other supplier content, methods and means of communicating a Prop 65 Warning that Supplier deems necessary and appropriate. For the purpose of this paragraph, Supplier shall assume that all Products supplied to Buyer are intended for distribution and sale within the State of California, unless Buyer otherwise instructs Supplier in writing.
  - i. Supplier acknowledges that Buyer's ultimate parent company, Textron Inc., is subject to Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Act") and the implementing rule promulgated by the U.S. Securities and Exchange Commission ("SEC") which will require reporting related to tin, tantalum, tungsten and gold (the "Conflict Minerals") contained in products sold by Buyer. Supplier shall promptly provide such written certifications concerning Conflict Minerals contained in Products, components, parts and materials supplied to Buyer by Supplier as Buyer may request from time to time. Supplier acknowledges that for purposes of any reports Textron Inc. may file with the SEC, Buyer and Textron Inc. will rely on the accuracy and completeness of each such certification. Supplier represents and warrants that it has adopted and will maintain a supply chain policy and procedure to conduct, and require its suppliers to conduct, a reasonable inquiry to determine, (i) whether the products, components, parts or materials supplied to Buyer contain Conflict Minerals and (ii) whether the source of any such Conflict Minerals not derived from recycled or scrap materials may be from the Democratic Republic of the Congo or an adjoining country and if so to perform due diligence to identify the facilities used to process such Conflict Minerals and make efforts to identify the location of each mine or location of origin of such Conflict Minerals with the greatest possible specificity..

- (G) Supplier shall provide Buyer written notice immediately upon becoming aware that any director, officer or employee of Supplier, or any of its subsidiaries or affiliates, is also a director, officer or immediate family member of any director or officer of Buyer, or any of its subsidiaries or affiliates. As to employees of Supplier only, Supplier shall be required to report this information to Buyer only if the employee (excluding an officer or director of Supplier) is substantively involved in Supplier's business relationship with Buyer or receives any direct or indirect compensation or benefit based on Supplier's business relationship with Buyer.

## 12. FORCE MAJEURE:

- (A) Supplier shall not be liable for any excess costs if the failure to perform any Order arises out of causes beyond the reasonable control and without any fault or negligence of Supplier which prevents Supplier's performance. Such causes may include, but are not limited to, acts of God, or of the public enemy, acts of the government, fires, flood, terrorism, epidemics, quarantine restrictions, freight embargoes, and unusually severe weather, (each a "Force Majeure Event"). Force Majeure Events shall not include any strikes, labor actions or lockouts of Supplier's employees or the employees of Supplier's vendors or subcontractors. Supplier shall notify Buyer in writing within two (2) calendar days of any and all events of Force Majeure.
- (B) If a Force Majeure Event continues for longer than five (5) calendar days, then Buyer, at its sole option, may terminate any Order affected thereby in whole or in part without any obligation or liability except that Buyer is still responsible for payment for Products or services which have been delivered to and accepted by Buyer prior to Force Majeure notice receipt.
- (C) Any Order may be cancelled by Buyer without liability at any time prior to delivery or performance if its business is interrupted for reasons beyond Buyer's reasonable control. Buyer shall give prompt notice of such cancellation to Supplier.

### 13. TERMINATION AND SETTLEMENT:

#### (A) Termination for Default:

- (i) Buyer may, by written notice of default to Supplier, immediately terminate the whole or any part of any Order itself if Supplier fails to make delivery of the Products or to perform the services required by any Order within the time specified or any written extension thereof. If Supplier fails to satisfy any of the other requirements of any Order, or so fails to make progress as to endanger performance of an Order in accordance with its terms and conditions, and does not cure such failure within a period of ten (10) calendar days (or such longer period as Buyer may authorize in writing) after receipt of notice from Buyer specifying such failure, then Buyer may terminate the whole or any part of such Order.
- (ii) In the event Buyer terminates an Order in whole or in part as provided in subparagraph (i) above, Buyer shall have no further obligation to Supplier under the terminated portion of an Order and Buyer may procure, upon such terms and in such manner as Buyer may deem appropriate, Products or services similar to those so terminated, and Supplier shall be liable to Buyer for any excess costs.

(B) Termination for Insolvency: Buyer may immediately terminate any Order without liability to Supplier in any of the following or any other comparable events: (i) insolvency of Supplier, (ii) filing of a voluntary petition in bankruptcy by Supplier, (iii) filing of any involuntary petition in bankruptcy against Supplier, (iv) appointment of a receiver or trustee for Supplier or (v) execution of an assignment for the benefit of creditors by Supplier, provided that such petition, appointment or assignments is not vacated or nullified within fifteen (15) days of such event, or (vi) ceases to operate, temporarily or permanently. Supplier shall reimburse Buyer for all costs incurred by Buyer in connection with any of the foregoing, including, but not limited to, all attorney's or other professional fees.

(C) Termination for Convenience: Buyer may at any time by written notice terminate all or any part of any Order for Buyer's convenience, in which event Supplier agrees to stop work immediately as to the terminated portion and to notify subcontractor(s) (if any) to stop work, and protect and preserve all property in its possession in which Buyer has an interest. If any Order is terminated, in whole or in part, for Buyer's convenience, Supplier shall be paid an amount, to be mutually agreed upon, which shall be adequate to cover the reasonable cost of Supplier's actual performance of work under such Order to the effective date of termination. Buyer shall have no obligation to make any of the aforementioned payments to Supplier, either for completed items or in connection with terminated work-in-process, unless Supplier shall, no later than thirty (30) days from effective date of termination, establish to Buyer's satisfaction that such completed items, or the work-in-process, including materials, are unusable in connection with Supplier's other business. In no event shall the termination charges and all previous payments made under any Order exceed the total price shown in such Order.

(D) If an Order is terminated as provided in paragraphs 13 (A)-(C), Buyer, in addition to any other rights provided in the Order, may require Supplier to transfer title and deliver to Buyer, in the manner and to the extent directed by Buyer, the following: (i) any completed Products; and (ii) such partially completed Products and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (hereinafter called "manufacturing materials") as Supplier has specifically produced or specifically acquired for the performance of such part of such Order as has been terminated. Supplier shall also, upon direction of Buyer, protect and preserve all property in the possession of Supplier in which Buyer has an interest. Payment for completed Products delivered to and accepted by Buyer shall be at the price specified in the Order. Payment for manufacturing materials

delivered to and accepted by Buyer and for the protection and preservation of property shall be in an amount agreed upon by Buyer and Supplier; failure to agree to such amount shall be a dispute within the meaning of paragraph 21 hereof. Buyer may withhold from amounts otherwise due Supplier for such completed Products or manufacturing materials such sum as Buyer determines to be necessary to protect Buyer against loss because of outstanding liens or claims of former lien holders.

- (E) The rights and remedies of Buyer provided in this paragraph 13 shall not be exclusive and are in addition to any other rights and remedies provided by law or under such Order. Any termination of an Order under this paragraph 13 shall not relieve Supplier of any obligations and liabilities which may have arisen under any of the terms and conditions of such Order prior to such termination, including, but not limited to, patent infringement, latent defects, and warranty obligations.

14. **PRICES:** No delivery may be invoiced at a higher price than what is provided for in the Order. If no lower price is shown on the invoice, the price provided for in the Order shall be the price payable by Buyer. Prices are exclusive of applicable sales taxes (including V.A.T. and comparable taxes, if applicable) and applicable import and export customs duties. No charge will be allowed for packing, crating, drayage, or storage. Supplier warrants that prices charged for the Products are not higher than those charged to any other customer, including the government, for Products of like grade and quality in similar quantities.

15. **INDEMNITY:** Supplier shall, at its own expense, indemnify, hold harmless and defend Buyer, Buyer's affiliates and their respective officers, directors, employees, representatives, agents and insurers, from and against any and all damages, losses, expenses, attorney fees, court costs, etc., arising out of or related to any suit, claim, or proceeding brought against Buyer or any of Buyer's affiliates alleging that the Products sold pursuant to an Order infringe the patent, copyright, trademark, trade dress, or other intellectual property rights of a third party, provided, that: (a) the infringement is not the result of Supplier's use of a method, process, or technique required by the engineering drawings or otherwise by Buyer, and (b) Supplier is promptly notified, given any assistance requested (at Supplier's cost), and permitted to direct the defense. Notwithstanding the foregoing, any delay in notifying Supplier of an infringement claim shall not relieve Supplier of its obligations under this paragraph unless such delay materially prejudices Supplier in its defense of such claim. Further, Supplier agrees to pay any damages and costs awarded against Buyer or any Buyer affiliate by final judgment of a court of last resort in any such suit on account of any such infringement indemnified above, but Supplier shall have no liability for settlements or costs incurred without Supplier's consent. This paragraph shall survive the cancellation, termination, expiration, or completion of any Order.

Notwithstanding anything contained in Supplier's warranty to the contrary, Supplier and Buyer expressly agree that Supplier shall indemnify, hold harmless and defend Buyer, Buyer's affiliates and their respective officers, directors, employees, representatives, agents and insurers, from and against any and all claims, litigation, damages, losses, expenses, attorney fees, court costs, etc., that result from or arise out of incidents, accidents, injuries or deaths to any persons or damage and/or losses to property, that relate to the Products purchased by Buyer from Supplier, and are caused in whole or in part by: (a) Supplier's breach of any term or provision of any Order, including but not limited to any warranty, whether express or implied; (b) any negligent or willful acts, errors or omissions by Supplier or its employees, officers, agents, representatives or subcontractors in the performance of this Agreement or any Order; or (c) any defect in or noncompliance of the Products, or failure of the Products to meet applicable specifications; provided, however, that the indemnification in this subsection (c) shall not apply to design defects contained in the engineering drawings to the extent the Products are manufactured to, and comply with, such engineering drawings. This paragraph shall survive the cancellation, termination, expiration, or completion of any Order.

**16. GRATUITIES, POLICIES AND PROCEDURES:**

- (A) If it is found that gratuities (in the form of entertainment, gifts or otherwise) are offered by Supplier, or any agent or representative of Supplier, to any employee or representative of Buyer with a view toward securing favorable treatment with respect to the awarding or performing of any Order, Buyer may, by written notice to Supplier, terminate any or all Orders as upon a default in accordance with such Order in addition to any other rights or remedies provided by law.
- (B) Supplier, its employees, representatives, and agents shall comply with all of Buyer's rules, regulations, policies and procedures while on Buyer's premises or in the company of any of Buyer's employees. If Supplier, its employees, representatives, or agents violate Buyer's rules, regulations, policies, or procedures, Buyer may, by written notice to Supplier, terminate any Order as upon a default in accordance with such Order in addition to any other rights or remedies provided by law.

**17. APPLICABLE LAW:** Buyer and Supplier expressly agree to exclude from applicability to any Order the United Nations Convention on Contracts for the International Sale of Products, 1980, and any successor thereto. Each Order shall be deemed to be a contract entered into in, and exclusively governed by and construed in accordance with, the substantive laws of the state of Georgia, and without regard to its conflict of laws rules. Buyer and Supplier each submit in any dispute or lawsuit related to or arising out of any Order or the Products or services provided under any Order to the sole and exclusive jurisdiction and venue of either the: (A) Georgia State Superior Court for the County of Richmond or (B) United States District Court for the Southern District of Georgia, Augusta Division. Any provision in any Order or in any attachments hereto and incorporated herein which is prohibited by the laws of any state shall, as to such state, be ineffective to the extent only of such prohibition, but without invalidating any of the remaining provisions hereof.

**18. AMENDMENT BY LAW:** Each Order shall be deemed to contain all provisions required to be included by any applicable local, state federal or foreign laws, orders, regulations or directives heretofore or hereafter promulgated without the subsequent amendment of such Order specifically incorporating such provisions.

**19. CUSTOMS PROCEDURES AND EXPORT CONTROLS:** Supplier shall provide all information requested by Buyer to fulfill its import or export obligations. At a minimum, Supplier shall provide country of origin documentation (to be signed, dated and on Supplier letterhead), Harmonized Tariff Schedule (HTSUS, 10 digit) for all U.S. based Suppliers, Harmonized Tariff Schedule (6 digit minimum) for non U.S. based Suppliers, and Export Classification Number (as such is defined by The Commerce Control List, 15 CFR Part 774 or by the United States Munitions List, 22 CFR Part 120-130). Credits or benefits resulting or arising from any Order, including trade credits, export credits or the refund of duties, taxes or fees, shall belong to Buyer. Supplier shall provide all information necessary (including written documentation and electronic transaction records, Free-Trade Certificates of Origin) to permit Buyer to receive such benefits or credits, as well as to fulfill its customs related obligations, origin marking or labeling requirements and origin requirements, if any. Export licenses or authorizations necessary for the export of the Products to Buyer shall be the responsibility of Supplier.
